Beijing, China (industrialized)
39.9°N, 116.4°E
β_0=2.64, $\beta_{\Delta E}$=0.02, $\beta_{\Delta SIF}$=0.22, R^2=0.32

Ruhr Valley, Germany (industrialized)
51.4°N, 7.2°E
β_0=2.47, $\beta_{\Delta E}$=0.15, $\beta_{\Delta SIF}$=0.30, R^2=0.56

Tokyo, Japan (industrialized)
35.7°N, 139.7°E
β_0=2.59, $\beta_{\Delta E}$=0.16, $\beta_{\Delta SIF}$=0.16, R^2=0.33

Los Angeles, USA (industrialized)
34.0°N, 118.2°W
β_0=2.58, $\beta_{\Delta E}$=0.02, $\beta_{\Delta SIF}$=-0.02, R^2=0.01

Amazon, Brazil (forest)
3.5°S, 62.0°W
β_0=2.48, $\beta_{\Delta E}$=-0.02, $\beta_{\Delta SIF}$=-0.02, R^2=0.00

Borneo, Indonesia (forest)
1.0°S, 113.5°E
β_0=2.48, $\beta_{\Delta E}$=-0.25, $\beta_{\Delta SIF}$=0.29, R^2=0.29

Patagonia, Argentina (steppe)
45.0°S, 70.0°W
β_0=2.51, $\beta_{\Delta E}$=-0.24, $\beta_{\Delta SIF}$=-0.09, R^2=0.26

Siberia, Russia (boreal)
62.0°N, 100.0°E
β_0=2.51, $\beta_{\Delta E}$=-0.09, $\beta_{\Delta SIF}$=-0.23, R^2=0.44

Australian Outback (desert)
25.0°S, 133.0°E
β_0=2.50, $\beta_{\Delta E}$=-0.01, $\beta_{\Delta SIF}$=-0.05, R^2=0.01

Delhi, India (industrialized)
28.6°N, 77.2°E
β_0=2.61, $\beta_{\Delta E}$=-0.07, $\beta_{\Delta SIF}$=-0.12, R^2=0.07

Doha, Qatar (arid / industrialized)
25.3°N, 51.5°E
β_0=2.57, $\beta_{\Delta E}$=-0.06, $\beta_{\Delta SIF}$=0.04, R^2=0.02

New York, USA (industrialized)
40.7°N, 74.0°W
β_0=2.52, $\beta_{\Delta E}$=0.22, $\beta_{\Delta SIF}$=0.26, R^2=0.09

growth rate / contribution (ppm/yr)

year

Global mean ± 1 SD | predicted | $\beta_{\Delta E}\,\Delta E_z$ | $\beta_{\Delta SIF}\,\Delta SIF_z$ | CAMS ± growth_err
